

Overview

These Buy America compliant Wall Mount Cable Retractors offer a cable management system that improves the appearance and safety of a charging site. The retraction system automatically suspends cables off the ground and out of the way to prevent tangling and ensure a tidy charging station. This makes it even easier for users to handle the charging equipment, especially in extreme weather conditions.

This efficiently-designed system can be easily bolted to walls or ceilings with pre-drilled mounting holes and includes 1 or 2 cable retractors to protect the charging connectors and their cables.

Key Benefits

- Cable management system (with 1 or 2 retractors) lifts charging connectors off freezing or hot pavements and prevents damage from vehicle runoff
- Buy America compliant
- Durable steel construction for indoor or outdoor use
- Ratcheting stop eliminates constant tension on cable when connector is plugged into vehicle
- 10ft pull length works with up to 25ft cable length
- Mount to wall, ceiling, or pedestal

Specifications

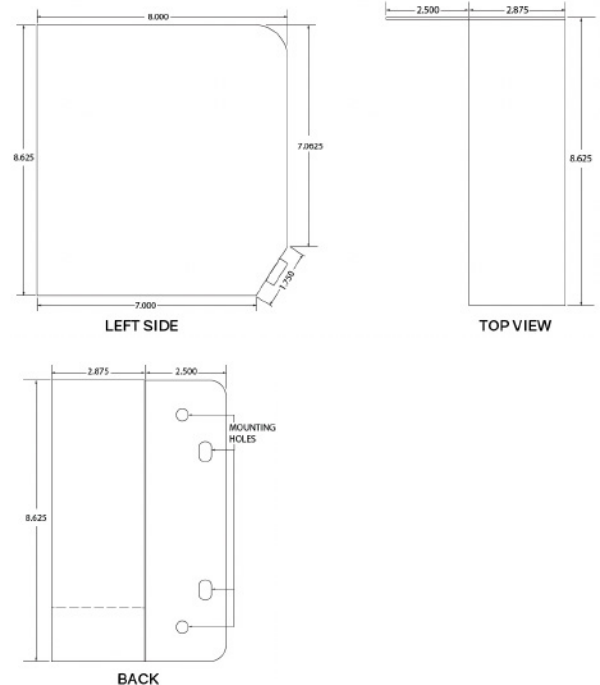

- Dimensions (D x W x H): 8in x 5.375in x 8.625in
- Fits 0.75in to 1.5in diameter cables
- Materials & Finish: RAL 7035 Powder-Coated Steel
- Mounting hardware not included

Compatible Chargers

- ICE-40A
- ICE-80A
- ICE Dual 80A
- ABB Terra AC Wallbox
- ICE-30
- ICE-22 V2X
- ABB Terra DC Wallbox
